

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Registration Division (7505P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

89670-1

Date of Issuance:

11/19/19

NOTICE OF PESTICIDE:

☒ Registration  
☐ Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Black Pearl Paste

Name and Address of Registrant (include ZIP Code):

Lodi Group  
c/o  
Jane Eickhoff  
ToXcel, LLC  
7140 Heritage Village Plaza  
Gainesville, VA 20155

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Meredith F. Laws, Chief  
Invertebrate & Vertebrate Branch 3, Registration Division

Date:

11/19/19

2. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, "EPA Reg. No. 89670-1."

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated May 12, 2014

If you have any questions, please contact Gene Benbow by phone at 703-347-0235, or via email at [Benbow.Gene@epa.gov](mailto:Benbow.Gene@epa.gov).

Enclosure

# Black Pearl Paste

[Alternative names: Flash Paste / Flash Mouse Killer / Alpha Paste]

Rodenticide paste bait sachets for effective control of house mice.

**THIS BAIT STATION IS RESISTANT TO TAMPERING BY CHILDREN AND DOGS. USE INDOORS ONLY.**

**Active Ingredient:** Alphachloralose..... 4%  
**Other Ingredients:**..... 96%  
**Total:** ..... 100%

KEEP OUT OF REACH OF CHILDREN  
KEEP BAIT REFILLS OUT OF REACH OF CHILDREN AND PETS

## CAUTION

Read additional precautionary statements on inner panel.

**Net Weight:** x oz

Contains: (x) refillable bait station, and up to 24 sachets (0.35 oz/10g each)

Manufactured by:  
Lodi Group  
Parc d'Activites des Quatre routes 35390 Grand Fougeray  
France

EPA Registration No. 89670-x  
EPA Est. No.:

FIRST AID	
IF SWALLOWED	Call a poison control center or physician immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or physician. Do not give anything by mouth to an unconscious person.
IF IN EYES	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing. Call a poison control center or physician for treatment advice.
Pet Poisoning	Call veterinarian at once if pet is exposed. Keep pet warm to facilitate treatment.
Have the product container with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.	
<b>NOTE TO PHYSICIAN:</b> Alphachloralose depresses the central nervous system. The metabolism of the rodent or animal digesting this product is reduced, resulting in death via hypothermia.	

## **PRECAUTIONARY STATEMENTS**

### **HAZARDS TO HUMAN AND DOMESTIC ANIMALS**

Harmful if swallowed. Causes moderate eye irritation. Wash thoroughly with soap and water after handling bait or bait station and before eating, drinking, chewing gum, using tobacco, or using the toilet. Avoid contact with eyes or clothing. Wear: long pants, socks, shoes, and waterproof gloves when handling bait or dead rodents.

### **ENVIRONMENTAL HAZARDS**

This pesticide is toxic to birds and other wildlife. Do not apply this product directly to water.

### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use only to control house mice inside homes and buildings.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pest and application methods described on this label.

**USE RESTRICTIONS:** This bait station may be used in indoor areas accessible to children and pets, consistent with all use restrictions and other requirements indicated in this label. **DO NOT USE THIS PRODUCT OUTDOORS.**

Do not place this bait station in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food. Do not place near or inside ventilation duct openings.

**SELECTION OF TREATMENT AREAS:** Determine areas where house mice will most likely find and consume bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where house mice and their signs have been seen. Remove as much alternative food and harborage (e.g., clutter piles, unused boxes, etc.) as possible.

### **APPLICATION DIRECTIONS:**

**Opening, Refilling and Reclosing the Mouse Bait Stations:** [*pictograms may be added to illustrate each step*]

1) To open the Bait Station, put on gloves and insert the plastic key into the lock on top of the Bait Station lid. Push the key all the way down into the lock and turn the key in the direction of the arrow to open the station lid.

#### **2) REMOVE AND SAVE KEY**

3) Remove the plastic bait holder and discard any remaining bait from both the holder and the bait station. Place one refill Black Pearl Paste sachets into each side of the plastic bait holder, with center holes facing upward (each station should always contain two sachets).

4) Insert plastic bait holder with the two refill sachets into the **MIDDLE COMPARTMENT** of the Bait Station.

5) **WITH KEY STILL REMOVED** and plastic bait holder and refills in place, snap the lid of the Bait Station shut by pressing down on the lock.

6) CLEAN AROUND THE BAIT STATION AREA BY REMOVING ALL REMAINING BAIT AND BAIT CRUMBS. ENSURE THAT GLOVES AND BAIT ARE DISPOSED OUT OF REACH OF CHILDREN, PETS AND WILDLIFE.

7) Wash hands thoroughly.

**Placement of Bait Stations That Have Been Filled:**

1) Place filled bait station in horizontal position with side against walls or other vertical surfaces, exposing the entrance holes. (See **Use Restrictions** and **Selection of Treatment Areas**.)

2) After determining treatment area(s), if more than one bait station is used, place the bait station(s) every 8 to 12 feet (2.5 to 3.5 meters) along walls and corners where house mice or their signs have been seen. Place a single bait station at each location.

3) Regularly check bait stations (s) for consumption. If no feeding occurs after three days, move stations to areas where house mouse activity is evident. If bait has been removed or has become soiled or spoiled, remove residual material and reload the station with two new Black Pearl Paste sachets. Replace bait as necessary to maintain a constant supply of fresh bait for 21 days or until signs of house mouse activity cease.

4) Using waterproof gloves, collect and dispose of all visible dead animals and leftover bait properly.

5) To discourage re-infestation, limit sources of rodent food, water and harborage as much as possible. If re-infestation occurs, repeat treatment.

**STORAGE AND DISPOSAL****Pesticide Storage**

Store in original container in a dry place inaccessible to children and pets

**Pesticide Disposal and Container Handling**

Non-refillable container: DO NOT reuse or refill this container except as described in the Directions for Use.

**If empty:** Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

[Additional Optional Marketing/Advertising Claims]

- Can kill mice in as little as one day.
- Kills mice within 24-48 hours.
- Palatable bait formulation
- Soft bait
- Contains Alphachloralose
- For indoor use
- Use permitted in garages at locations consistent with the limitations set for in the DIRECTIONS FOR USE
- Bait station conceals bait from view
- Bait station
- Formulated for house mouse control
- Controls house mice
- Kills house mice
- Kills house mice in the home
- For use indoors for control of house mice
- For indoor house mouse control
- Helps reduce house mouse problems
- Novel rodenticide with different mode of action
- A newly released active ingredient that can kill mice in as little as one day. *[claim to be removed 6 months after marketing begins]*
- New active on the market *[claim to be removed 6 months after marketing begins]*
- Reusable bait station
- Refillable bait station
- Child & Dog Resistant Station
